Community and Program Wide PBIS Collaborations

Bradford County
Community and Program Wide PBIS in PA

Pyramid Model

- Universal Promotion
- Secondary Prevention
- Tertiary Intervention

A Framework of Evidence-Based Practices

Community Wide - Pyramid Model Implementation

- Systems approach for establishing the program culture and individualized supports for supporting social emotional competence
  - Measurable outcomes
  - Data decision making
  - Evidence-based interventions
  - Systems supports
A Data Decision-Making Approach

- Outcomes are identified
- Fidelity and outcomes are measured
- Data are summarized and used to:
  - Identify community training needs
  - Deliver professional development
  - Make community wide changes
  - Problem solve around specific sites or issues
  - Ensure child learning and success
- Data collection AND ANALYSIS is an ongoing process

What is Community Wide

- Builds on the Pyramid Model by designing intervention from the whole (universal) community to site to the individual child

- Uses collaboration to ensure:
  - Administrative support and buy-in
  - Buy-in from Community
  - Family involvement
What is Program-Wide PBIS?

• Builds on the Pyramid Model by designing intervention from the whole (universal) program to the individual child

• Uses collaboration to ensure:

The Community Wide Process

1. HeadStart/EHS
2. EI/Family Supports
3. Childcare
4. Home Visiting Programs
5. Community/Agencies
6. School Districts

What's the difference?

Program Wide
Community Wide
Further Considerations

• State data has shown:
  – 28 of the 39 programs who will receive recognition for implementing with fidelity got started with PW PBIS as an early childhood partner as part of an EI grant
  – 2 more are EI buildings whose program got started with targeted TA from EITA.
  – Of the 9 who have not had a grant, 8 started with an experienced facilitator or sustained by joining with another ECE program recognized for fidelity.

• Summary Statement:
  – The key to success in implementing Program Wide PBIS is to have an implementation partner.
