

Frequently Asked Questions (FAQs)

Pennsylvania Early Intervention Technical Assistance Sponsored Enrollment Autism Navigator for Early Intervention Providers Online Professional Course

1. What is the *Autism Navigator for Early Intervention Providers: Knowledge and Skills* course?

The *Autism Navigator for Early Intervention Providers: Knowledge and Skills (AN: K&S)* course is a thirty hour online professional development course designed for early intervention providers, particularly those working with young children with autism in the home. It's divided into five thematic units and emphasizes intervention practices.

The **AN: K & S** integrates current research on early identification and intervention of ASD with the requirements of Part C infant/toddler early intervention (EI) services. While the emphasis of this course is on infant/toddler EI, it is a valuable professional development resource for preschool EI and other early childhood and behavioral health home visiting professionals and early childhood higher education faculty.

For more information on course content and hours, refer to the course description [About the Course – Autism Navigator for Early Intervention Providers](#) on the [EITA Portal](#).

For more information on this course and other professional development courses offered through Florida State University's (FSU) Autism Institute, see pp. 5 of these FAQs, or, go to <https://autismnavigator.com/> - click on the "Courses" tab at the top of the page for a drop down menu of courses.

2. How is Early Intervention Technical Assistance (EITA) supporting enrollment of Pennsylvania (PA) EI professionals in the *AN: K & S* course?

Through a multi-year contract between FSU and EITA, a generous but limited number of **AN: K & S** enrollment seats will be available to approved PA Early Intervention and early childhood professionals at no cost (a \$625/seat market value) until December 2020.

Until December 2020, the EITA **AN: K & S course** pre-paid seats will be filled using an open enrollment process. Each approved PA seat provides one year of access to this course from the date of enrollment registration. Enrollment registration may occur at any time throughout the year. The course requires 30 hours of study and enrollees are expected to finish the course.

3. How does this course benefit PA EI professionals?

Since approximately one in fifty-nine persons are thought to have autism, it's likely that most EI professionals will serve children with autism. This course provides a state-of-the-art professional development opportunity specifically designed to support evidence-based practices within a Part C infant toddler EI context. The course is entirely self-paced and online.

Some incentives to enroll include:

- Increased knowledge and practical skill-based utility
- Convenience – this is a 100% online professional development opportunity
- Access to one year enrollment in the course (a \$625 value), FSU monthly community of learner webinars, and a library of resources.
- ASHA credit hours for completion of *Autism Navigator* Units for eligible SLPs
- Certificates of Completion issued by Florida State University that may be used as evidence for PA Infant-Toddler EI training credit hours.

4. Since there are multiple Autism Navigator courses, which one(s) are suggested for my position?

Before submitting an enrollment request, please read and follow the recommendations in the table at the end of this FAQ. It will help you to identify the Autism Navigator course and resources recommended for your position.

5. Who is eligible to enroll in the 30 hour EI *Knowledge and Skills* course and how may I enroll?

You must read and understand these FAQs and refer to the Tables on pp 5-6 at the end of this document before requesting enrollment.

Infant Toddler Early Intervention (EI) Professionals

Because focus of the course is on social communication skills support through EI services to very young children with ASD, **it is highly recommended that all PA special instructors and speech and language pathologists who serve infants and toddlers through ongoing IFSP services enroll in and complete the course.**

After reading the **AN: K & S** course description, these FAQs and the attached course recommendation tables, infant-toddler EI professionals who are interested in and eligible for enrollment may email EITA at **ANenroll@pattan.net** to request enrollment.

Once EITA receives your enrollment request, you will be asked to complete a *PA AN Enrollment Agreement*. After your completed agreement form is received and approved, EITA will send enrollment instructions and a code. Please allow up to two weeks for your request to be processed.

Preschool Early Intervention (EI) Procedures

Preschool EI direct service professionals may enroll in the **AN: K & S** course. All requests must be made with the knowledge of the program preschool supervisor. Special educators and SLPs are the most relevant positions for this course, particularly if they serve children with autism in the home. Occupational Therapists may also find value in the course. To request a seat, preschool professionals must email enrollment requests to ANenroll@pattan.net and include their preschool program supervisor in the cc: of the email request. Or, the preschool program supervisor may email ANenroll@pattan.net with the name(s), email(s) and position(s) of the PS staff that would like to enroll.

Once EITA receives an enrollment request (with PS supervisor knowledge), that staff person will be asked to complete a *PA AN Enrollment Agreement*. After the completed agreement is received and approved, EITA will send enrollment instructions and a code. Please allow up to two weeks for a request to be processed.

Pennsylvania Higher Education Early Childhood Special Education and Early Intervention Faculty

Pennsylvania higher education faculty who regularly teach courses in Early Intervention, Early Childhood Special Education, Early Care and Education, or Related Services (i.e., SLP, OT) are invited to apply for enrollment in the **Early Intervention Providers: Knowledge and Skills** course.

It is hoped that completion of this course will support faculty in preparing their students to work with young children with ASD. **After** reading the **AN: K & S** course description and these FAQs, interested PA faculty are invited to email enrollment requests to EITA at ANenroll@pattan.net. EITA will follow up by asking you to complete a *PA AN Enrollment Agreement (FAQ #6)*. After your completed agreement form is received and approved, EITA will send enrollment instructions and a code. Please allow up to two weeks for your request to be processed.

6. What is the *PA AN Enrollment Agreement*? Is it required for enrollment?

The *PA AN Enrollment Agreement* is a required enrollment application for EITA sponsored **AN: K & S** enrollment. It asks for basic profile information and requires potential enrollees to attest to the following conditions.

- You are currently and anticipate continuing for the upcoming year:
 - 1) Providing or supervising EI services in Pennsylvania, or
 - 2) Teaching Early Intervention, Early Childhood Special Education, Early Care and Education, or Related Services (i.e., SLP, OT) related coursework in a PA institution of higher education
- You have read the Autism Navigator Course Description and these FAQs, and agree to complete the 30 hour online course within one year,
- You will not share your enrollment code with any persons, agencies, groups or organizations.

- You have access to the following computer resources required to use the online course: 1. Internet connection with adequate speed to view video clips, 2. Speakers or headphones for audio, 3. The latest version of Chrome, Safari or Firefox (Explorer is not supported), 4. Adobe Reader for PDF files.

7. What can I expect once I enroll?

The **AN: K & S** course is a 30 hour online course consisting of five thematic units. It is entirely self-paced. There are no scheduled times that an enrollee must be online. Approved PA enrollees have one year from registration to complete the course (at no cost).

It is highly recommended that enrollees schedule a minimum of five hours per month on the course. The course content progressively builds knowledge across units. A minimum of a five hour per month pace will keep learners on track with content while preventing attrition. At five hours per month, an enrollee can expect to complete the course in six months and have an additional six months to use course materials and resources, which are valuable and plentiful.

Enrollees are encouraged to share *Autism Navigator's* tools and resources with families and team members (although sharing enrollment codes is forbidden).

8. Are any continuing education units (CEUs) awarded for the Knowledge and Skills course? How and when are they awarded?

- Act 48 CEUs are not issued by EITA/PaTTAN or FSU for this course.**
- If Act 48 hours are desired, contact your local EI program to determine local options for Act 48 credit.
- For each of the 5 Units, Certificates of Completion are issued from FSU. These Certificates may be used as evidence for PA infant-toddler EI training hours. To obtain a Certificate of Completion, enrollees must complete the Post-Unit Assessment with an 80% pass rate. The assessment may be repeated as needed.
- ASHA CEUs are issued through FSU and Autism Navigator to eligible SLPs.
- EITA/PaTTAN will not be issuing CEUs of any type for AN completion.
- For Certificate of Completion & ASHA hours, see the chart below.

Unit	AN Certificate of Completion	ASHA
Unit 1: Improving Early Detection	5.5 hours	.55 CEUs
Unit 2: Collaborating with Families	3 hours	.30 CEUs
Unit 3: Developmental Perspective	6 hours	.60 CEUs
Unit 4: Evidence-based Intervention Strategies	11 hours	1.10 CEUs
Unit 5: Addressing Challenging Behaviors	5 hours	.5 CEUs

9. I'm interested in taking the three hour *About Autism in Toddlers* course. How do I register? Are CEUs available for the *Autism Navigator: About Autism in Toddlers (AN: AAT)* course?

[Autism Navigator: About Autism in Toddlers](#) is a free course that's available online through the Autism Navigator. If you're interested in obtaining three Pennsylvania Infant Toddler Early Intervention training hours (and a certificate of completion), you must register for the course on the EITA Portal.

- To register for the course on the **EITA Portal**, go to <http://www.eita-pa.org/professional-development/> (then scroll to the **Service Delivery** course section to find the *About Autism in Toddlers* course).
- Once you register for this course by completing demographic information on the EITA Portal, you'll be directed to a link for the **AN: AAT** course on the FSU/Autism Navigator site.
- After you've completed the **AN: AAT** course (approximately 3 hours) on the Autism Navigator site, you must return to the EITA Portal and complete the assessment and reflection activity.
- Once you pass the assessment (80%), you will receive a Certificate of Completion valid for 3 Infant/Toddler PA EI training hours.

10. How do I prevent or address technical problems within the course (e.g., slow video play; denied access)?

Please keep in mind that Florida State University (not EITA) manages the course. **All technical problems should be directed to the AN Help Desk** (linked in the course). If you are unable to access the course after following enrollment instructions and these guidelines, email the *Autism Navigator* Help Desk for advice (autismnavigator@med.fsu.edu).

Autism Navigator contains extensive interactive audio/video content. You must use **the latest versions** of the following browsers on the platforms listed below:

Mac and PC laptops and desktops; iPads

Chrome, Safari, Firefox (**AN will not function properly in Internet Explorer**)

Windows based tablets:

Not currently supported.

Most technical problems submitted to the Navigator team are solved by **updating browsers**.
