

Accessible Transcript for Selecting a Service Delivery Strategy for Early Intervention Services

Use the COVID-19 Dashboard to review transmission risk in your community. While in-person strategies may be safer in Moderate or Low risk communities, it is recommended that when a community is in Substantial Risk of transmission of COVID-19, tele-intervention strategies are used to implement the IFSP/IEP.

Option 1:

Did the child's IFSP/IEP team determine that in-person services are needed to meet the needs of the child?

If the answer is "yes," then, Did the COVID screening questionnaire, *which must be completed prior to every in-person IFSP/IEP service*, identify a concern for the child/family?

If the answer is "yes," then, Use tele-intervention strategies to implement the IFSP/IEP.

Option 2:

Did the child's IFSP/IEP team determine that in-person services are needed to meet the needs of the child?

If the answer is "yes," then, Did the COVID screening questionnaire, *which must be completed prior to every in-person IFSP/IEP service*, identify a concern for the child/family?

If the answer is "no," then, Is everyone who plans to participate in the serve able to follow the [Universal Masking order](#)?

If the answer is "no," then, Use tele-intervention strategies to implement the IFSP/IEP.

Option 3:

Did the child's IFSP/IEP team determine that in-person services are needed to meet the needs of the child?

If the answer is "yes," then, Did the COVID screening questionnaire, *which must be completed prior to every in-person IFSP/IEP service*, identify a concern for the child/family?

If the answer is "no," then, Is everyone who plans to participate in the serve able to follow the [Universal Masking order](#)?

If the answer is "yes," then, In-person or tele-intervention strategies may be used to implement the IFSP/IEP.

Option 4:

Did the child's IFSP/IEP team determine that in-person services are needed to meet the needs of the child?

If the answer is "no," then, Use tele-intervention strategies to implement the IFSP/IEP
