Keynote 1: CHANGING MENTAL MODELS, CHANGING SYSTEMS

Dr. Sparrow will take a look at mental models, how our automatic thinking and our social networks reinforce them, and how we can use deliberative thinking to see beyond our mental models to new solutions, new ways of thinking and being. In today's world of clashing mental models, we need more than ever to be able to look carefully at our own way of thinking. Dr Sparrow will invite participants to explore common ground with those who think or seem to think differently.
