

Applied Behavior Analysis Course Support Training Series

Audience: Early Intervention (EI) professional and paraprofessional staff who wish to gain knowledge and skills related to applying principles of behavior analysis to effective teaching practices. EI administrators and/or staff actively engaged in behavior planning who do not have prior training in behavior analysis may also be interested in this opportunity.

This opportunity includes access to 40 hours of online content on application of ABA principles for effective instruction. Course content is provided by Relias Academy. EITA will provide access to coursework and a monthly application discussion to support the work.
