OCDEL Early Intervention Family Survey 2024

This survey is for families with children receiving Early Intervention services in Pennsylvania.

It is important that we hear from you! Your family has a unique perspective that only you can express and share. This short survey is one way that you can provide information and feedback. Your responses will help guide state and local improvements in the Early Intervention program.

Your responses are confidential.

- The survey should take 5 - 10 minutes to complete.
- Please read each question carefully and think about your experiences in Early Intervention. You may have had experiences with a variety of different people. Consider your experiences with these individuals as a whole.
- Please skip any questions that do not apply to your family and situation.

The first few questions are about your child. This information will help us know what Early Intervention Program your child participates in. Programs will not be able to identify your responses in their summary reports.

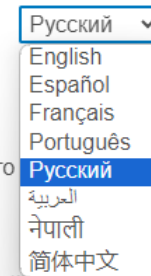

Опрос семей по раннему вмешательству OCDEL, 2024 г.

Это исследование предназначено для семей с детьми, получающих услуги раннего вмешательства в Пенсильвании.

Нам важно услышать ваше мнение! У вашей семьи есть уникальная точка зрения, которую только вы можете выразить и поделиться. Этот короткий опрос — один из способов предоставить информацию и оставить отзыв. Ваши ответы помогут улучшить программу раннего вмешательства на уровне штата и на местном уровне.

Ваши ответы конфиденциальны.

- Проведение опроса должно занять 5–10 минут.
- Пожалуйста, внимательно прочитайте каждый вопрос и подумайте о своем опыте раннего вмешательства. Возможно, у вас был опыт общения с разными людьми. Рассмотрите свой опыт общения с этими людьми в целом.
- Пожалуйста, пропустите любые вопросы, которые не относятся к вашей семье и ситуации.

STRATEGIES TO
DISSEMINATE
THE SURVEY

Keys to Successful Returns

Do

- Anticipate families needs
- Support families, but allow families space
- Share information often and in multiple ways
- Use clear messaging to describe the purpose of the survey and how information is used
- Be familiar with the instructions for disseminating the survey

Keys to Successful Returns

Don't

- Pressure families
- Guide families to answer items a certain way
- Use language that conveys that the survey is not relevant to the local community
