

Agency Administrator's Guide to the I/T Early Intervention Provider Registry

Who Should Use this Administrator's Guide?

You should be using this guide if you have been designated as the Early Intervention (EI) Registry Administrator for your agency. Each EI provider agency, including those providing Service Coordination services, should have a person designated as the Infant/Toddler EI Provider Registry Administrator. The I/T EI Provider Registry Administrator is responsible for administrating the Registry, including verifying employees who have created an account, monitoring employee participation, and accessing reporting features.

What if the Administrator changes?

Do not give your account details to a new Administrator. If your agency needs a new person designated as the Infant/Toddler EI Registry Administrator, please email ra-ocdintervention@pa.gov.

Common Definitions in the Provider Registry

Agency – holds the contract with the county to provide EI services, including those providing Service Coordination services (e.g., Service Coordination Units). An Independent Provider, who holds the contract with the County to provide EI services, is also their own agency.

Early Intervention Specialist – All Pennsylvania EI providers who must document training hours for an Infant/Toddler EI program will create a profile in the Provider Registry under the category of Early Intervention Specialist.

Employer – If an EI provider delivers services through an agency, regardless of their official employment status (employee vs. contractor vs. subcontractor), that agency is considered their Employer. The Employer is the agency that holds the contract with the County to provide EI services. All Employers will appear in the Provider Registry using the agency's official name as listed in PELICAN-EI. DO NOT CREATE A NEW EMPLOYER.

Independent Provider – If a provider delivers EI services and directly holds the contract with the County to provide those services, that person is both a Provider and their own Agency. They will also be their own Registry Administrator.

Provider – an individual providing EI services, including Service Coordination.

Registry Administrator – the person within each agency designated to track and/or enter information into the Provider registry related to the agency's providers.
